NEWS TRACKER APPLICATION

Who does the problem affect?	What are boundries of the problem?	What is the issue?
Customer such as ram	Geographic,work flow,dailylife	Physical news papers are old fashioned in this digital area. They cost money to buy, can easily be damaged,limited amount of information,not flexible to modifications,poor quality. Fixing these in such a way can make physical newspapers become extinct and their use can be abolished. If the problem isn't solved,it would become a greater problem to integrate

When does this issue occur?	Where is issue occurring?	Why is it important that we fix this problem?
The issue occurs when the customers wants to read the news	The issue occurs when people try to access information i.e during the usage. Accessing information is flawed through the usage of physical news paper in the digital area	It is important to fix this problem because since everything in our day to day life is becoming/ being converted to digital from a physical/Analog entity. It is necessary to access information from any where. It reduces the hassles of getting knowledge and information that has happened before and will promote everyone to know better about the current events that's happening and will motivate everyone to gain a

		profound knowledge in the field of their interests.

What is social impact /customer satisfaction?
 	
    For example,in critical situation like covid it is useful for reading news in app instead of reading news in newspaper.
	What is business model (revenue model)?
	
	    Right now the application is profit less but in future we might add an option of premium plans for advanced learning.
		What is scalability of the solution?
		
		    Based on the situation the customer visiting the shop and purchase a newspaper it contains less content.This application is scalable for all information in any kind of situation and contains updated information.
